PROFILE

Telecommunications Engineering student at the National Engineering School of Tunis (ENIT), specializing in Data Science for Intelligent Communications, with a research-oriented Master of Research in Information Processing and Complexity of the Living (TICV). Experience in AI, machine learning, signal processing, computer vision, optical communications and intelligent systems through academic research, internships and technical projects. Currently seeking a **6-month Engineering internship in AI / Data Science** to apply research and technical skills to real-world data-driven challenges.

COMPETENCIES

AI & Machine Learning	Python, TensorFlow, Scikit-learn, CNN, BiLSTM, VideoMAE, representation learning, RAG
Signal Processing	Digital signals, optical communications, SSFM, spectral/power analysis, physiological & biological signals
Computer Vision	MediaPipe FaceMesh, OpenCV, facial recognition, anti-spoofing, real-time inference
Data & Software	Pandas, NumPy, FastAPI, React, Node.js, Angular, MongoDB, MySQL, Git, WordPress
Embedded & Systems	STM32, FreeRTOS, UART, Web Serial API, distributed systems, microservices

PROFESSIONAL EXPERIENCE

Intern — Artificial Intelligence & Intelligent Systems 06/2026 – 08/2026

Talan, Tunisia

- Conducted a structured study of world models and the JEPA architecture, assessing their maturity and limitations, and ran diagnostic experiments on released I-JEPA and V-JEPA 2 checkpoints (robustness to occlusion and blur, embedding structure, masked and future latent prediction) against MAE, BEiT, DINOv2 and CLIP.
- Designed and built a research support platform (React, FastAPI, PostgreSQL, Redis) with an interactive encyclopedia, a model advisor, and a research radar that ingests arXiv papers and extracts structured metadata with an LLM (Groq).

Intern — Computer Vision 07/2025 – 08/2025

SFM Groupe, Tunisia

- Research on face anti-spoofing and presentation attacks, covering printed photos, screen replays, videos, and 2D/3D masks.
- Development of a real-time CNN-based anti-spoofing system from scratch for the company, with OpenCV inference, liveness verification, and guided multi-angle face capture.

Technical & Logistics Team Member — E-learnNIT (The One) 11/2025 – 01/2026

Humanitarian Technologies Competition, IEEE Region 8

- Contributed to an AI-powered platform for real-time Tunisian Sign Language recognition and text-to-speech, including the creation of a community-validated TSL dataset.
- Supported technical demonstrations, deployment, and project coordination.
- 2nd Place**, IEEE Region 8 Humanitarian Technologies Competition (Europe, Middle East & North Africa).

PROJECTS

TuniLIP+ — Signals & Smart Systems Laboratory (L3S), ENIT 10/2025 – 04/2026

Deep Learning, Computer Vision, Sequence Modeling, Multimodal Learning, Transfer Learning

- Dataset construction & preprocessing of a Tunisian Arabic lip-reading corpus with vocabulary selection for healthcare applications.
- Development and benchmarking of CNN-BiLSTM (curriculum learning), MobileNetV2 (transfer learning), VideoMAE (Vision Transformer), and a Hybrid Ensemble.
- Browser-based system with real-time mouth detection, inference pipeline, and crowdsourcing module for dataset expansion.

Optical Fiber Laser System Simulation — ENIT 10/2024 – 04/2025

Nonlinear Optics, SSFM (Split-Step Fourier Method), Fiber Optics Components, Numerical Simulation

- SSFM-based simulation of a figure-eight fiber laser for ultrashort pulse generation using SMF, EDFA, NLF, NOLM, and NALM components.
- Investigation of cavity length, gain, and saturation energy effects on pulse dynamics and laser stability.

EDUCATION

Master of Research (ongoing) 09/2026 – 09/2027

National Engineering School of Tunis (ENIT), Tunisia

Information Processing and Complexity of the Living (TICV)

Engineering Cycle (ongoing) 09/2024 – 06/2027

National Engineering School of Tunis (ENIT), Tunisia

Telecommunications Engineering specializing in Data Science for Intelligent Communications

Pre-Engineering Studies (Physics & Chemistry) 09/2022 – 05/2024

Preparatory Institute for Engineering Studies, Nabeul, Tunisia

Ranked **144** among 950+ candidates in the National Engineering School Entrance Examination

Natural Sciences Baccalaureate (High Honors) 06/2022

Mahmoud Messadi High School, Nabeul, Tunisia

LEADERSHIP ACTIVITIES

- Chair**, IEEE ENIT Student Branch (2025); coordinated a 300+ member community and contributed to IEEE Section/Region-level technical achievements.
- IEEE Tunisia Section Educational Activities Committee member; IEEE Young Professionals Tunisia Taskforce Coordination Committee Chair; IEEE PES Young Professionals Communications & Marketing Committee Graphic Designer (ongoing).
- Recipient of the **IEEE Tunisia Rising Star Member Award** (2025).

CERTIFICATIONS & LANGUAGES

Certifications	CCNA: Introduction to Networks (Cisco) · Efficient Large Language Model Customization (NVIDIA)
Languages	English (B2) · French (B2) · German (A2)
